

SAVE GAS!

**Kentucky Adult Education and KET
can help you save gas and pass your
GED® Tests by studying at home.**

Here's how it works:

- Send \$20 to KET to enroll as a "KYAE/KET Partnership" student and we'll send a set of KET GED Connection workbooks to your home address – they are yours to keep.
- Use the workbooks to study at home or use them at your adult education center.
- Complete each workbook lesson after you watch a GED Connection program either on DVD at the adult education center or at home on KET broadcasts. (There are 39 half-hour programs covering all five GED subjects.)
- Review the lessons with your adult education instructor and get help with all your study questions and needs.
- When certified as ready to take the GED exam by the adult education center, send \$20 to KET.
- A \$40 GED Test Voucher will be sent to you.
- Register with your local adult education center to get started.

So, save gas and get on the road to your GED credential with the Kentucky Adult Education / KET Partnership!
